

Artnom

Eastern religion and philosophy have been different from that of the western since the beginning. I also feel the way of thinking for searching fundamental truths of life is different. I explore my imaginary story through techniques of Oriental using modern materials. There are many similar parts between the modern techniques of animation and traditional folk art which can be easily understood by the general public. I always chase for fun and honest expression through my works. There are many funny characters in my pieces, like the mister resembling me, the bunny girl and the puppy. They are all my lovely family which can express myself and they also represent the general public. I want to express world where anyone can easily share my art while living with them.

LEE & BAE

Artnom (b.1971, Seoul, Korea)

■ Educations

Korean Painting, Joongang University, Seoul, Korea
